Component-budget diagnostic and endpoint accounting
Quadrature sensitivity is reported separately; no convergence certificate
$\Sigma_{F,i} = 0$
$\Sigma_{F,i} = 0.0003$
$\Sigma_{F,i} = 0.001$
$\Sigma_{F,i} = 0.003$
$\Sigma_{F,i} = 0.01$
$\Sigma_{F,i} = 0.03$
$\Sigma_{F,i} = 0.1$
Fixed diagnostic threshold: 2e-5
All 175 nominal cases: sampled-data consistency diagnostic
