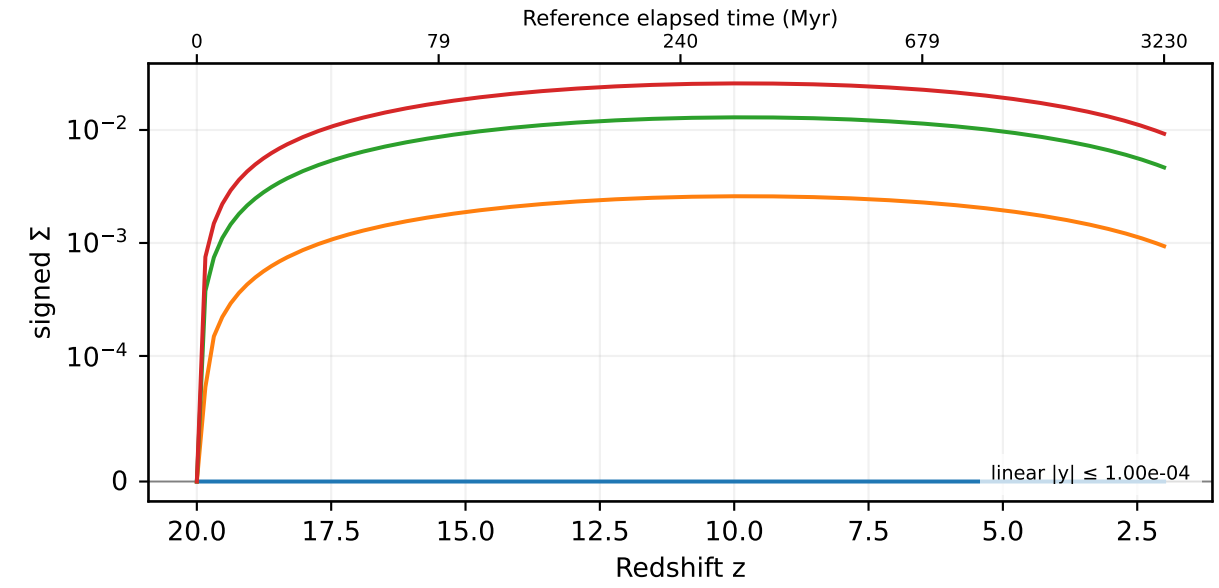
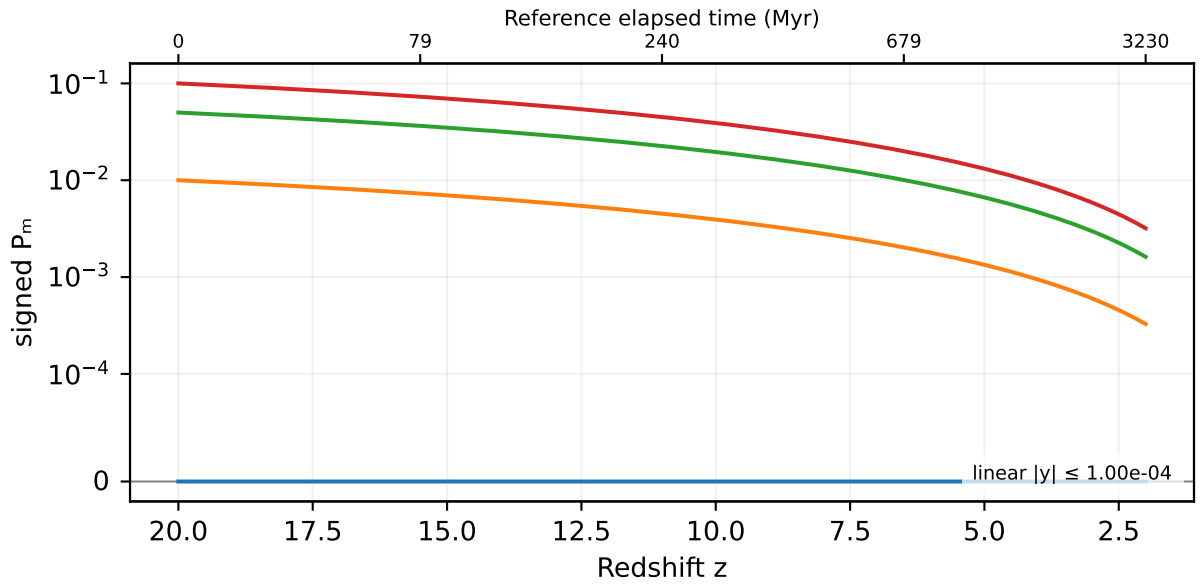
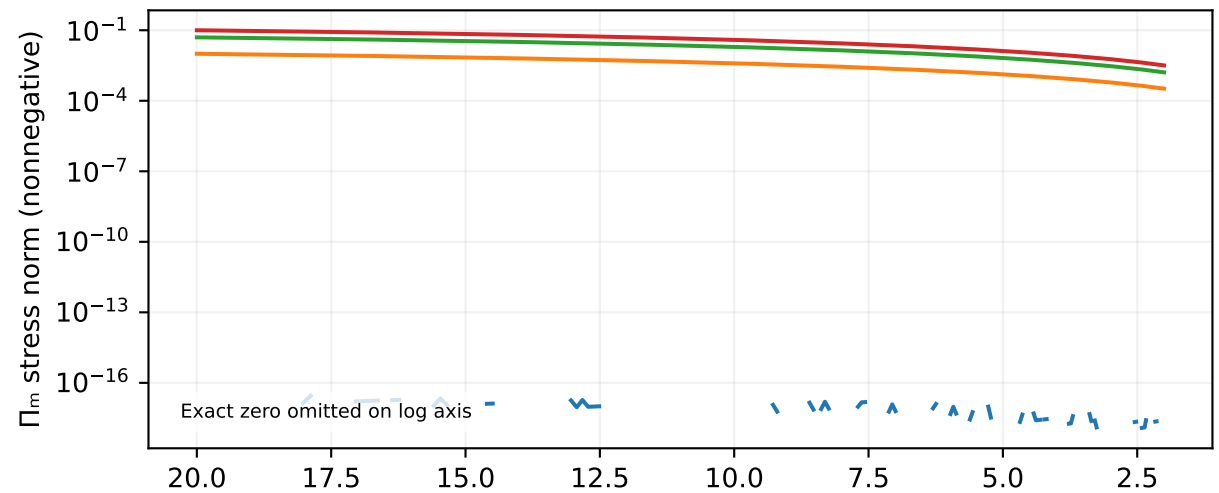
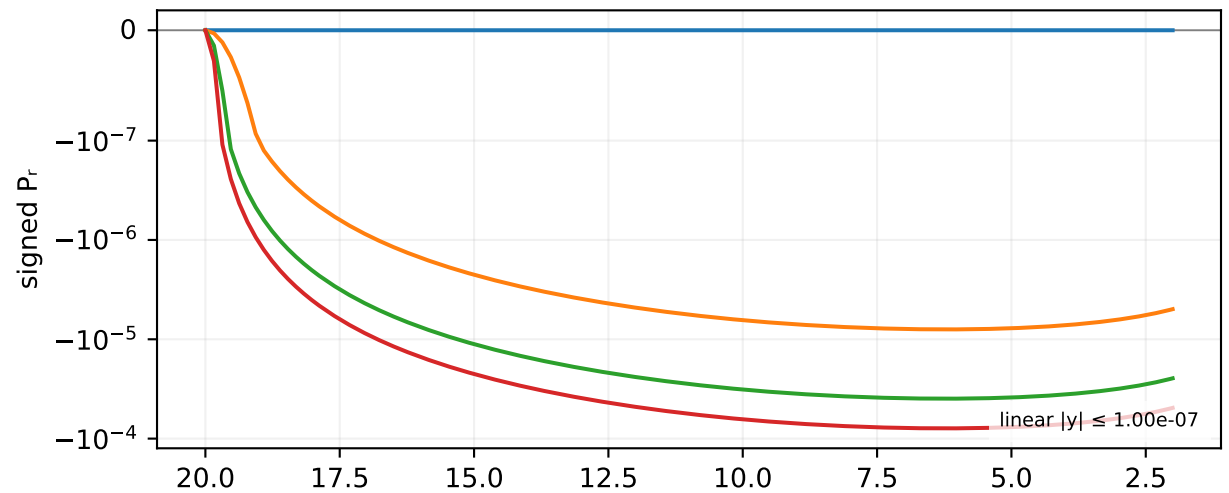
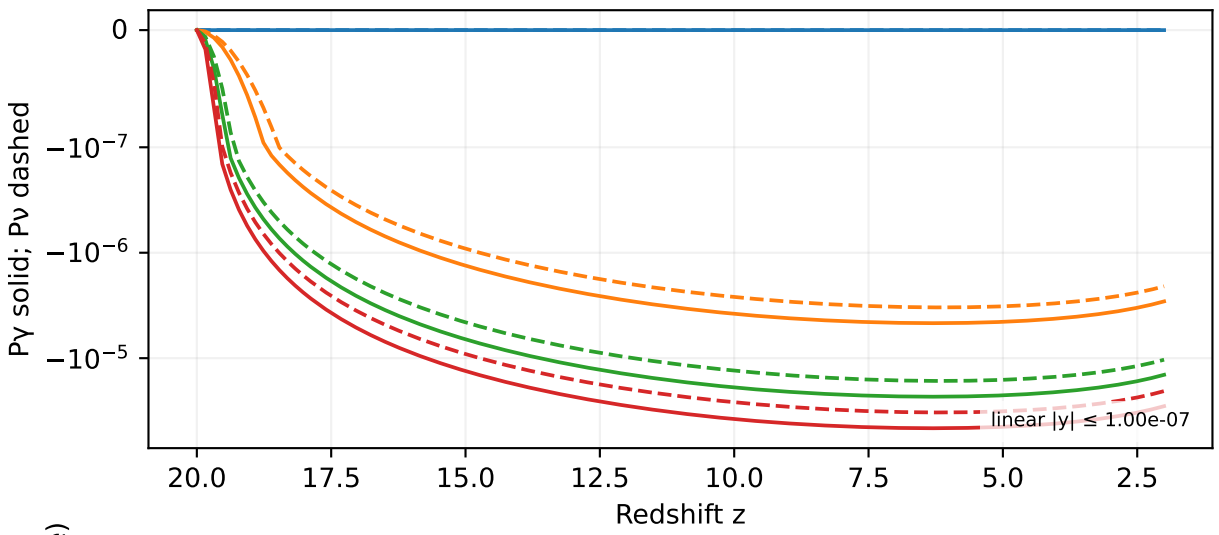
New matched semi-relativistic family: f_m=0.3, m/Tref=3 — signed stresses, stress norm, geometry, and massive moments
Other axes and isotropic massive moments fixed initially; histories may differ
Auxiliary axis uses reference clock: strongPiM_m3_f0.3_Pi0_L16; other cases have different z(t).

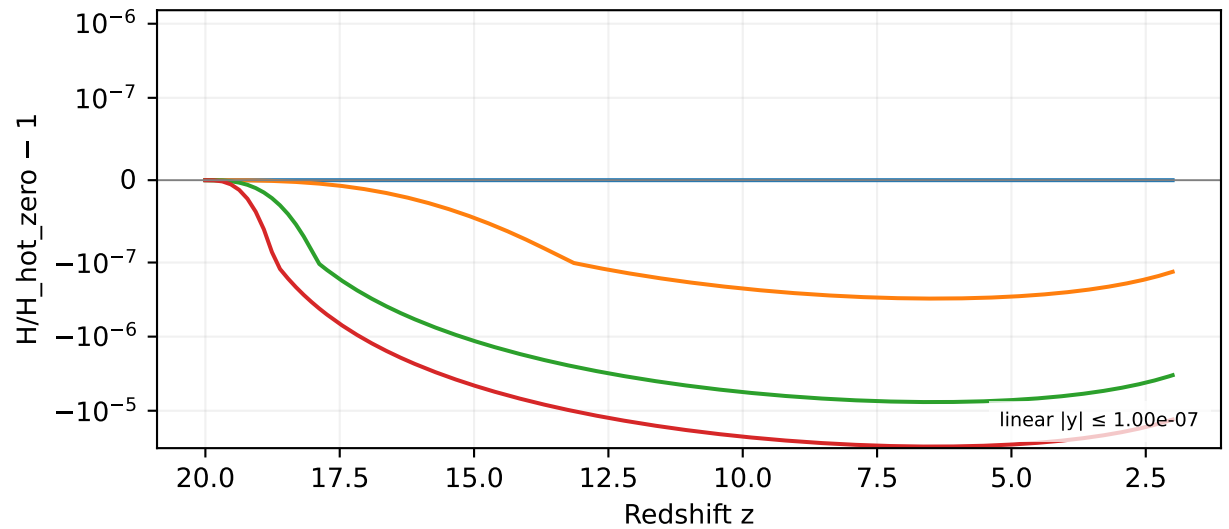


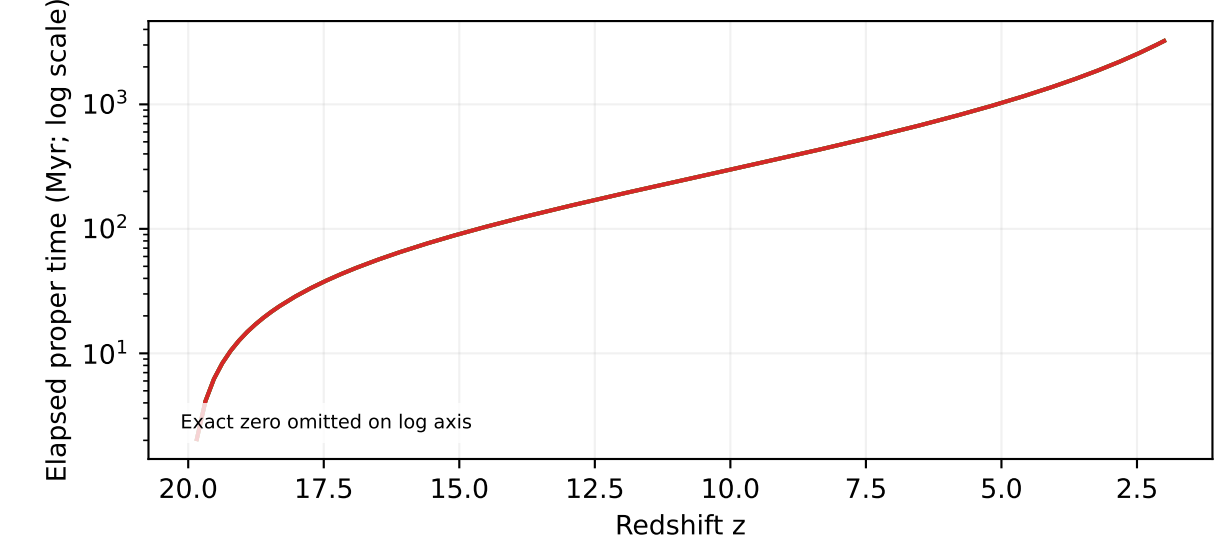


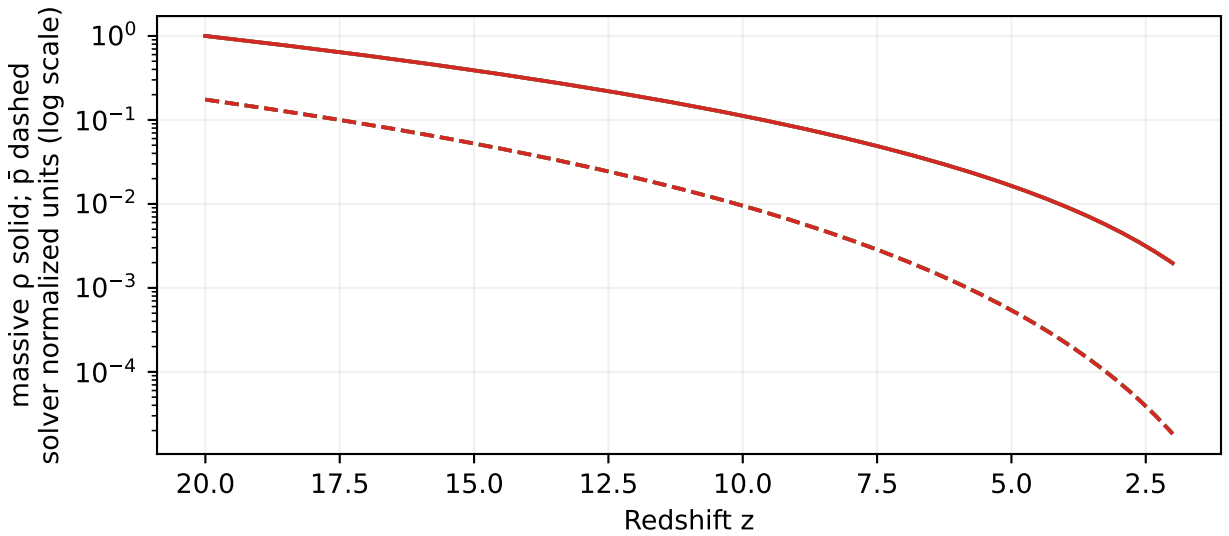












hot Π_{m0}=0 (L16)
hot Π_{m0}=0.01 (L16)
hot Π_{m0}=0.05 (L16)
hot Π_{m0}=0.1 (L16)
